

HARDWOOD FLOORING

Your room is a strip away from having a new floor.

LIST OF NEEDED STEPS:

1. Identify existing sub floor makeup i.e. Wood, Concrete.
2. Carefully take measurements of affected rooms to determine square footage to be covered.
3. Check for moisture.
4. Select appropriate type of flooring to be used to correspond with type of sub-floor.
5. Select Specie and color to be used.
6. Select Mouldings needed to complete job i.e. Base, Base Shoe, Threshold, Reducer etc...
7. Select fasteners, and or Adhesive to be used.
8. Select moisture barrier if applicable.
9. Select underlayment if applicable.
10. Remember to start with proper preparation such as: Removal of existing floor covering (Be careful not to remove old sheet vinyl or Composition Tile without first having been tested for Asbestos) If needed use a qualified removal company first.
