

PANELING PROJECT/SHEETS OR PLANKS

Create a new look in any room instantly with paneling from Southern Lumber.

LIST OF NEEDED STEPS:

1. Carefully measure walls to be covered.
2. Determine number of Sheets, Packages, or Pieces needed.
3. Select type and pattern to be used.
4. Select needed mouldings to finish off such as: Base, Chair rail, Casing, Inside, or Outside corners.
5. Determine proper type of adhesive and fasteners needed to install.
6. Don't forget matching Putty/Filler.
7. Determine if Electrical outlets or switches are affected, and select proper box extensions.
8. If unfinished product is selected, you will need to determine proper Stain & Finish or Primer & Paint to be used.
9. Installation starting point will best be determined by type of paneling purchased.
