

BASIC PICTURE FRAME

Create personal one of a kind frames with the help of a Southern Lumber Company trained Staff Member.

LIST OF NEEDED STEPS:

1. Determine the size and shape needed.
2. Study plans or examples from our Literature Department.
3. Select the desired moulding profile or lumber specie.
4. If moulding or lumber needs cutting, see our Milling staff for assistance.
5. Next cut each leg of frame with a 45 degree angle on each end.
6. Start assembly by clamping 2 legs together using either corner clamp or spring clips, apply glue to keep joint strong, and secure with a small finish nail appropriate to the size of moulding (lumber) being used. Continue until all 4 sides have been assembled.
7. Once complete a little sanding is all that is needed to prepare for final finish.
8. Remove dust particles with the help of a Tack Cloth and you're ready to apply the Stain & Finish or Primer & Paint.
9. After the frame finish is dried the last thing to do is attach the mounting hardware (usually consisting of a couple of screw eyes and picture hanging wire).
10. Now is the easy part. Insert your picture, install the glass, secure and hang.

Checklist of Needed Supplies:

- | | |
|---------------------------------------------------|----------------------------------------------------|
| <input type="checkbox"/> Moulding / Lumber | <input type="checkbox"/> Paint Brush |
| <input type="checkbox"/> Finish Nails | <input type="checkbox"/> Screw eyes & hanging wire |
| <input type="checkbox"/> Fasteners | <input type="checkbox"/> Sandpaper |
| <input type="checkbox"/> Putty / Filler | <input type="checkbox"/> Tack Cloth |
| <input type="checkbox"/> Primer & Paint | <input type="checkbox"/> Drop Cloth |
| <input type="checkbox"/> Stain & Finish | |
| <input type="checkbox"/> Thinner | |
| <input type="checkbox"/> Stain Cloth / Applicator | |

Recommended Tools:

- | | |
|-----------------------------------------------------|--------------------------------------------------|
| <input checked="" type="checkbox"/> Hammer | <input checked="" type="checkbox"/> Putty Knife |
| <input checked="" type="checkbox"/> Hand Saw | <input checked="" type="checkbox"/> Tape Measure |
| <input checked="" type="checkbox"/> Drill | <input checked="" type="checkbox"/> Router |
| <input checked="" type="checkbox"/> Pilot Drill Bit | (If applicable) |
