

## POTTING BENCH

Multi-functional and very practical - A potting Bench  
Is a gardener's best friend. We'll show you how.

### LIST OF NEEDED STEPS:

1. Determine where potting bench will be used (Indoors or Outside).
2. Determine the size to fit your needs.
3. Does it require storage underneath?
4. Should the top surface be wood or other material?
5. Does it need to be Mobile (if so consider the use of Casters). Select Casters based upon weight of Potting Bench as well as surface that they will roll on.
6. Develop sketch or drawing that best fits your needs, for helpful design ideas check out our Literature department.
7. Start by selecting the specie of lumber to be used.
8. Next develop a material cut list.
9. Now you are ready to layout material and cut needed components (or have one of our trained mill personnel cut it for you).
10. Thoroughly sand all pieces.
11. Start assembly on a flat workbench or level garage floor.
12. Give the Potting Bench one final sanding, Tack Cloth to remove dust particles, and finish by Painting or Staining.

### CHECKLIST OF NEEDED SUPPLIES:

- |   |  |
|---|--|
| <input type="checkbox"/> Lumber   | <input type="checkbox"/> Stain & Finish              |
| <input type="checkbox"/> Fasteners<br>(Screws, Bolts,<br>Nuts, and Washers) | <input type="checkbox"/> Thinner                     |
| <input type="checkbox"/> Casters<br>(If applicable)                         | <input type="checkbox"/> Stain Cloth /<br>Applicator |
| <input type="checkbox"/> Plastic Buckets<br>(for soil storage)              | <input type="checkbox"/> Paint Brush                 |
| <input type="checkbox"/> Primer & Paint                                     | <input type="checkbox"/> Sandpaper                   |

### RECOMMENDED TOOLS:

- |  |  |
|--|--|
| <input checked="" type="checkbox"/> Hammer   | <input checked="" type="checkbox"/> Drill Bits   |
| <input checked="" type="checkbox"/> Hand Saw | <input checked="" type="checkbox"/> Tape Measure |
| <input checked="" type="checkbox"/> Drill    | <input checked="" type="checkbox"/> Level        |
