

## VALUE PRICED CABINET DOOR REPLACEMENT

Let Southern Lumber Company help you “Cut” the cost of cabinet door replacement using various types of sheet goods.

### LIST OF NEEDED STEPS:

1. Take careful measurements of existing Doors & Drawer fronts. (or bring them in and have Southern Lumber measure them for you).
2. Select type of sheet good to be used.
3. Have Southern Lumber’s trained professionals inside our mill cut to exact measurements.
4. Take home and test fit.
5. You will want to edge band using alike material, or paint exposed edges to match.
6. Mount hardware.
7. Install onto cabinet box or frame.

### CHECKLIST OF NEEDED SUPPLIES:

- |  |                                      |
|--|--------------------------------------|
| <input type="checkbox"/> Sheet Good<br>(Cut to size) | <input type="checkbox"/> Paint       |
| <input type="checkbox"/> Hinges                      | <input type="checkbox"/> Paint brush |
| <input type="checkbox"/> Knobs or pulls              | <input type="checkbox"/> Sandpaper   |
| <input type="checkbox"/> Primer                      | <input type="checkbox"/> Tack Cloth  |
|  | <input type="checkbox"/> Drop Cloth  |

### RECOMMENDED TOOLS:

- |  |  |
|--|--|
| <input checked="" type="checkbox"/> Tape Measure | <input checked="" type="checkbox"/> Vix Bit        |
| <input checked="" type="checkbox"/> Hammer       | <input checked="" type="checkbox"/> Level          |
| <input checked="" type="checkbox"/> Screwdriver  | <input checked="" type="checkbox"/> Gloves         |
| <input checked="" type="checkbox"/> Drill        | <input checked="" type="checkbox"/> Safety Goggles |
